LAST NIGHT'S NEWS.

MAIL MESSENGERS QUARANTINED AT MEMPHIS.

Ex-Senator Ramsey, of Minnesota, to Succeed Secretary McCrary---Cotton Brokers' Circular.

WASHINGTON, July 18.—Mail Superintendent Terrell, of Atlanta, Ga., in a telegram to the general superintendent of the railway mail service, to-day said, all messengers between Memphis and Vicksburg have allowed themselves to be quarantined at Memphis and will not be permitted to perform service. Boats are running regularly between St. Louis and Vicksburg but make no stops at Memphis. From information obtained at the Executive Mansion to-day, there is no doubt as to the correctness of the assertion heretofore published in regard to the successor of Secretary McCrary. Ex Senator Ramsey, of Minnesota, has been tendered the office and has accepted.

A Methodist Minister wins a Boat Race.

LAKE GEORGE, July 18.—In a paddling canoe race, started at 5:30 yesterday afternoon, there were ten entries. The event caused considerable merriment among the spectators. The course was one mile. C. A. Cressy, a Methodist minister of New Hampshire, in a peculiar craft constructed by himself, took the lead at the word "Go" and won with ease in 10 minutes, 39 seconds, amid cheers and cries of "Pull for the shore." Putnam, of the New York canoe club, won the prize in his class boats in 11:45. The college four-paired race, postponed until this morning on account of lumpy water, was called at 8 o'clock. The water was in the best possible condition. The Columbia crew won; Wesleyans second; Cornells third. Time 8 minutes 26 seconds.

The college four-oared race rowed this morning at 8 o'clock. The water was roughed considerably by the north wind. The Columbia crew took the lead at the start and maintained it throughout. Time of different crews was as follows. Columbia, 8m.26s. (fastest on record on dead water); Wesleyan, 8m.38½s.; Cornell, 8m.48s. The course steered by Cornell was at least ten lengths out of the way.

THE FEVER AT MEMPHIS.

Two New Cases Yesterday--Epidemic Not Apprehended.

MEMPHIS, Tenn., July 18.—Two new cases of yellow fever were reported to the Board of Health this morning, Fred Eckers, barber, residing at No. 101 Reade street, and J. M. Williamson, at the corner of Jefferson and Front streets. Both of these persons have been sick two days, and the yellow fever symptoms were fully developed to-day. All trains going out late last night were crowded, and many more are leaving to-day. While the majority of physicians do not apprehend the raging of the fever in an epidemic form, they all advise the people, who can do so, to leave the city. The weather is warm and sultry to-day, after the thunder storm of last night.

Cotton Brokers' Circular.

LIVERPOOL, July 18.—This week's circular of the Cotton Brokers' Association says: In cotton there has been a continued pressure to sell. American has been in limited demand. Prices at which it was offered by sellers were irregular, and quotations are reduced one-sixteenth pence. Sea Island has been immoderate request at unchanged rates. Futures have been generally dull, but with several slight fluctuations. The final rates in nearly all positions are the same as those of last Friday.

Death of General Barry.

BALTIMORE, July 18.—General William F. Barry, Colonel of the Second artillery, in command at Fort McHenry, died at 11:15 to-day.

North Carolina Tobacco Crop.

Correspondence of the Virginia Tobacco Journal.

Caswell.—In this county a full crop of tobacco has been planted—some of it is looking remarkably well, while a large portion of it is buttoning too early.

Granville.—The crop is very good so far, and the prospect for fine tobacco is excellent.

In this county we found a full crop of tobacco planted and taking a broad growth, and in almost the entire northern half of the county it has not suffered for rain, while in the southern half it is earlier and suffering to some extent, going to seed and making a narrow growth. There is, however, a large crop planted in the county and timely showers will give a large yield. Going over into Halifax, Va., we learned that the seasons had been unfavorable and a good many had to water and plant while others planted none for want of plants.

Milton, July 11.—We are in the midst of a distressing drought, having had very little rain for several weeks, and at the most critical time for our tobacco. It is buttoning and running to seed—small and narrow—with bad prospects for curing bright. The crop will be a short one through this section. A good many have not finished planting, and a good deal of that planted out died this dry spell. With good seasons from now out, the crop will be a short and inferior one.

The Tobacco Prospects.

Virginia Tobacco Journal.

The reports of crops from Virginia, Kentucky, and some parts of Tennessee, do not promise large yields this year. In point of fact, however, similar reports come in annually from nearly every point of the compass. Afterward, the crops come in all the same—usually sufficing to answer all the demands of the markets. There do seem reasons this year, in Virginia particularly, to look for a crop somewhat below the average in quantity; but this diminished crop will receive greater care and attention, and we may reasonably hope that it will be put upon the market in much better condition than usual. From North Carolina the information we have points to a large crop—especially in those counties noted for producing the better grades of leaf.

Upon the whole we see no great cause for apprehension in any class interested in our great staple. Planters are not likely to be ruined by utter failure of crops, and dealers, manufacturers, etc., are pretty sure to have a supply furnished to their hands, quite equal to the demands of home and foreign consumption.

The Boy with a Tail.

Springfield Republican.

A tailed boy has been discovered at Cincinnati, by the name of George Rhen. He has reached the age of four years, while the tail has attained a length of 14 inches, being covered with silky, glossy hair. It is where the tail ought to be, and, so far from being outgrown, promises to outgrow the boy. The surgeons find it is regularly articulated to the backbone, and don't think it safe to take it off. Why should they? Especially since the boy finds it a considerable help in gaining an upright position like the kangaroo's tail. His father has taken him from the medical college and fled to Chicago, as offering the greatest encouragement to monstrosities. The savans do not yet inform us whether George is the missing link, or merely a freak of nature. The comfort which cattle derive from their tails in warm weather, and dogs at all times, should induce the curators of this fortunate youth to make a psychological study of him to determine whether the projection of his being through a tail adds any new senses or faculties, or, materially enlarges the conditioned realm of thought.

Plants Protected by Insects.

Mr. Francis Darwin, in a lecture on "Means of self-defense among plants," delivered at the London institution, said that one of the most curious forms of defense known is afforded by a recently discovered class of plants, which being stingless themselves, are protected by stinging ants, which make their home in the plant and defend it against its enemies. Of these the most remarkable is the bulls horn acacia (described by the late Mr. Belt in his book the "Naturalist in Nicaragua"), a shrubby tree with gigantic curved horns from which its name is derived. These horns are hollow and tenanted by ants, which bore a hole in them, and the workers may be seen running about over the green leaves. If a branch is shaken the ants swarm out of the horns and attack the aggressor with their stings. The chief service to the plant consists in defending it against leaf-cutting ants, which are the great enemy of all vegetation in that part of America.—*Ex.*

WHISPERINGS OF PEACE.

Signs of a Speedy Termination of the Zulu War.

LONDON, July 18.—Sir Michael Hicks Beach, colonial secretary, informed the House of Commons at the close of its sitting last night, that he had received a telegram dated Natal, June 30, announcing that the British forces were then within twelve miles of Ulundi, and that General Marshal had reported that a messenger had reached him from Cetywayo, bearing a tusk, which was a sign of a message from the King, but the purport of the message does not appear. The foregoing is the latest official information from the seat of war. The balance of the opinion seems to favor the belief in a speedy peace and the submission of Cetywayo. One report, which lacks confirmation, however, even represents that King Cetywayo would come forward personally to treat for peace. General Wolseley has instructed Colonel Lougan not to recommence operations against Secoceni, and to retrench his expenditures. General Sir Garnet Wolseley had received instructions to send the Prince Imperial home at the first opportunity. Fort Chelmsford and Fort Crealock were abandoned so as to enable the troops garrisoning them to join in the advance.

Building and Loan Association.

Judges as well as doctors differ. The Supreme Courts of North Carolina and Pennsylvania differ widely on the question of Building and Loan Associations. The Pennsylvania court has recently decided that "a building and loan association is a species of partnership for dealing in money. The borrower has often to pay very large interest, and if he fails so as not eventually to receive the advantages of his contract, it seems very hard, even cruel, to exact so heavy a forfeiture. Yet he became a member of the association in view of the large profits expected to accrue from those heavy discounts to the common fund. Had he continued to pay, when the association wound up he would have received his full share of his own discounts as well as those of others. Thus the borrower at usury is himself also a lender at usury, and if he can manage to make his payments is sure to come out in the end a large gainer. On the other hand *the Association can, as against its members, enforce contracts for usurious rates of interest*: Beckot *vs.* Uniontown Building and Loan Association, Supreme Court, Pa."

A Phenomenal Occurrence.

Charlotte Democrat.

The Rev. Samuel Lander, of Williamston, S. C. (formerly of Lincolnton, N. C.,) communicates to the Greenville, (S. C.) *News* a very remarkable case where a negro man, twenty-three years old, deaf and dumb from childhood, was recently endowed with the sense of hearing and speech. He was suddenly attacked with severe bodily pain and apparently mental agony, and after suffering in that way for some days, spoke out words for the first time in his life and heard music and singing. Since then he has been improving every day in speech and is well of the pains.

Those of us in this section of the State who know the author of the above statement, Mr. Lander, believe every word he says about it.

How the Fever was Started in Memphis.

Telegram to New York Sun.

As to the origin of the first case of yellow fever, it appears that the wife of Mulbrandon had several trunks full of clothes, which had been left her by relatives who died of yellow fever during the epidemic of '78, year; that within the past two weeks she opened two or more of these trunks, and took out, shook and aired their contents. By the germs thus set free, her husband was inoculated after his system had been reduced by the intensely hot weather, to which he succumbed on Saturday. Since his death not one of his family, including his wife, her sister and nine children, have even so much as complained, and there has not, within the past eight days, been a case of any kind of fever reported in the vicinity.

LAMAR ON THE EXODUS.

SELLING THE NEGROES FLAGS TO STAKE OFF LAND.

The Miserable Tricks Employed to Decoy the Negroes.---White Labor the Most Profitable.

Senator Lamar, who returned from Mississippi several days ago, was asked, by the *Post*, Wednesday, about the negro exodus. He said the excitement among the negroes on the subject of emigration had been allayed, but they are kept in a feverish and unsettled condition by parties interested in having them leave. Along the Mississippi river, where the exodus fever raged at first, it has pretty well died out, but in the interior of the State the subject is kept alive, though but few negroes are leaving.

"Are any efforts being made to keep the movement going?" asked the *Post*.

"Yes," replied the Senator, "men go among the negroes and persuade them that they are being abused and robbed and offer them inducements to go to Kansas."

"What motive prompts these men?"

"Some of them are moved by pure cussedness, hatred of the South, and others make money out of the negroes. Railroad companies having large tracts of land for sale are interested in getting negroes to locate upon it. The poor deluded negro will never be able to pay for the land he buys, and these men know it, but the railroad will get the benefit of whatever improvements he makes on the land. Some of them cheat the negroes out of what little money they have. A man recently went through Holmes county selling the negroes flags with which to stake off their land in Kansas, This is an old game, but those poor negroes were deceived by it. He got all the money they had and told them to meet him on a certain day at Durant, on the railroad, and he would have there a train to take them to Kansas free of charge. I saw a letter from a citizen of Durant, describing the appearance of the town and the scenes on the day named for the free train. The negroes from all the country around flocked to the station and the place was overcrowded with them. They could not be persuaded that they had been deceived, but insisted upon waiting for the train."

Senator Lamar said he did not believe that there would be anything like a general emigration movement among the negroes; that some would leave here and there, and others would return from the land of promise.

"Should the negro population leave the State, could other labor be procured?"

"Yes, sir," replied Mr. Lamar, "Mississippi would blossom like a rose."

In order to show how superior white labor would prove to colored, Colonel Lamar said he had had a white man employed on his plantation six months, and in that short time he had improved everything under his charge. This man had employed his practical knowledge of farming, and made improvements in the crop and stock that negroes would never think of. Senator Lamar thought that if the negroes were to "exodus" in a body, such valuable white laborers as the one on his plantation would go into the State to cultivate the land.

"OLD 81."

He Discusses the Right to Homestead on a "Yaller Dog."

"Dat prooves to my mind clarly," said Old Si, as he slid a chunk of ice into the water pitcher, "dat de legislatur er a instertushun whar orter be 'sportid."

"What makes you think so?" we queried in surprise.

"Dat 'mendment dat dey's ongratted 'pun de bill fer de taxin' ob the dogs up dar."

"You mean to exempt one to each head of a family?"

"Perzackly! Dat lets de nigger in de ring wid his houn' pup all recktibus skewyee, dont't hit?"

"Well that is rather a question. What do you think about it?"

"Kase why! Dere warnt 'nuff niggers hyar on de Fo'th ob July fer ter fix dat law up no better ter dere likin' dan it har rite now, ef dey'll only let her cool an' git well sot er she stans?"

"But it will only allow a dog to each man who is the head of a family, you know."

"Dat's jess de part ob de cob offen whar the nigger bites his co'n! Purty nigh ebery nigger in Georgy, yer know, whedder he can tell er marridge s'tificate fum er las' yeah's telegram, kin swar dat he's de hed ob er fam'ly, kase he's got hit sumwhar, but mos'ly scatterin'! So, yer see, dat let's dem all in, 'ceptin de wimmin an' de infunt class!"

"Oh, that is your idea?"

"You's got hit! an' dat's w'y I sez dis country ar' gettin' 'round whar the nigger kin turn loose his dreams 'bout de fo'ty akers an' de mule, an' grapple on ter 'stanchul rites dat makes de balance-sheet meshure out er full yahd down bofe side de paper! Whenebber de law gits fix'd whar de son ob Ham kin homestid on his yaller dog, de results of de wah am 'complish'd, an' de extry sesshuns ob congriss am de only tings 'twixt him an' heaben on yearth!"

And the old man chuckled heartily over the new era that had dawned upon his race.—*Atlanta Constitution.*

The Key Stone Democracy.

Resolved, First. That we, the Democratic party of Pennsylvania in convention assembled, renew our vows of fidelity to the fundamental principles proclaimed and practiced by the illustrious men who settled our free institutions and founded the Democratic party to protect and preserve them.

Second, That the just power of the Federal Union, the right of the States and the liberties of the people are vital parts of one harmonious system, and to save each part in the whole constitutional vigor is to save the life of the nation.

Third. That the Democratic party maintains, as it ever has maintained, that the military are and ought to be in all things subordinate to civil authorities. It denies, as it ever has denied, the right of the Federal administration to keep on foot at the general expense a standing army to invade the States for political purposes without regard to constitutional restrictions, control the people at the polls, to protect and encourage fraudulent counts of the votes or to inaugurate candidates rejected by the majority.

Fourth. That the right to a free ballot is the right preservative of all rights, the only means of peacefully redressing grievances and reforming abuses. The presence at the polls of a regular military force and of a host of hireling officials claiming the power to arrest and imprison citizens without warrant or hearing destroys all freedom of elections and upturns the very foundation of self-government. We call upon all good citizens to aid us in preserving our institutions from destruction by these imperial methods of supervising the right of suffrage and coercing the popular will in keeping the way to the ballot-box open and free, as it was to our fathers, in removing the army to a safe distance when the people assemble to express their sovereign pleasure at the polls and is securing obedience to their will when legally expressed by their votes.

Fifth. That Rutherford B Hayes, having been placed in power against the well-known and legally expressed will of the people, is the representative of a conspiracy only, and his claim of right to surround the ballot-boxes with troops and deputy marshals to intimidate the electors and his unprecedented use of the veto to maintain this unconstitutional and despotic power are an insult and menace to the country.

Sixth. That the Democratic party, as a whole, favors a constitutional currency of gold and silver and of paper convertible into coin.

Seventh. That we are opposed to the system of subsidies by the General Government under which during the period of Republican ascendancy, political rings and corporations profited at the people's expense, and to any appropriation of the public moneys or the public credit to any other object than the public service. The reforms and economies enforced by the Democratic party since its advent to power in the lower house of Congress have saved to the people many millions of dollars, and we belive that a like result would follow its restoration to power in the State of Pennsylvania.

Eighth. That the Democratic party, being the natural friend of the workingman and having throughout its history stood between him and all oppressions, renews its expression of sympathy for honest labor and its promise of protection in its rights.

Hot Weather Sympathy.

It's a minister. Poor man. He is quite preached out. He wants a rest this hot weather. Let us send him to Europe, to the Adirondacks, to the White Mountains. Good. We will. We will. Close the church. Stop preaching. Let him go and cool off. Farewell.

It is the rest of us. We are 990,000 strong. We are quite fagged out. It is hot weather. We want a rest. We want to go to Europe, to the Adirondacks, to the White Mountains. Will some country brother fill our pulpit?

All in the affimative say "Aye." Negative, "No." No! no!! no!!!

It is a judge. Salary, $15,000. Poor man. He's quite overworked. Sat on his bench thirty days last year. Isn't it sad? How unmercifully the public do work their paid servants. Get him off? Of course. And double his salary. Put him on ice, poor man. Let him cool off.

All in the affirmative say "Aye."

Aye! aye! aye!

It is a salesman or woman in a New York dry goods store. They work fifteen hours a day. Give them a rest? Send them to Europe, to the Adirondacks, to the White Mountains.

No. Can't think of it. Business is business. Sympathy depends on the amount of salary the man gets. Look at that poor $15,000 overworked Judge. Poor man! How he suffers this hot weather. Put him on ice. Put the clergyman on ice. The laborer is worthy of his hire.

All in favor of the fifteen-hour-worked-tea-store clerk going for a ten weeks' vacation to the Adirondacks to fish with the Rev. Mr. Murray say "Aye."

Contrary minded?

"No! no!! no!!!"—*N. Y. Graphic.*

Swapping Saliva.

Tarboro Southerner

With the thermometer raging anywhere from 95 to 100 in the shade, gum-sucking, or swapping saliva, would not seem to be the most comfortable of employments. And, yet, they say, an unliquidated amount of the business follows marriage so surely as night succeeds day, and is copious after in the same ratio it was scant before the wedding.

"I know not how the truth may be; I say the thing as 'twas said to me."

The market closed "off," with a downward tendency. We quote:

Married on Powell's Point, Pasquotank county, July 1st, at the residence of Jordan Owens, by Colonel J. M. Woodhouse, M. Dowdy and Miss Alethia Owens.

When first he approached he said, 'Howdy,'

Did the gallant Mr. M. Dowdy;

"My love is yours, I want yowins,

My dear Miss Alethia Owens."

She consenting, the sly little mouse,

They were hitched up for life by Colonel Woodhouse.

In E. City, N. C., July 2d, 1879, by Rev O. C. Horton, Mr. John R. Randolph, of Camden county, N. C., to Miss Susan E. Davis of Pasquotank.

If the birds go in pairs,
As the rabbits and hares,
Thus setting an example for men and women,
So, Mr. R. took the hint,
Gave Miss Susan a squint,
And now in bliss, celestial, they are swimmin.'

Our advice to all swains and maidens forlorn,
Is, forsake 'single cussedness' in life's early morn.
Then happiness is yours and your pleasure may be,
To rock a small cradle and concoct catnip tea.

Johnston County Items.

Our Clayton correspondent writes: This section was visited by a destructive storm Thursday evening. Fences were blown down and growing crops literally torn to pieces in some places. It seems to have been more severe about N. G. Gulley's than elsewhere, blowing the roof off of a gin house and stables, turning one house over and blowing trees down on three others, completely crushing them. It carried away part of a steam engine on Judge Fowle's farm, and crossed his vineyard and took his vines from the frames. The damages are great; but fortunately no one was hurt.

ANOTHER ACCOUNT.

Our Smithfield correspondent writes: The storm Thursday evening did great damage to crops and fences. In some sections of the county it was accompanied by hail.

CROP NOTES.

Corn crop is cut off one-half by the drouth.

There will be an average cotton crop from present indications. Other crops looking well.

Another American Victory on British Soil.

LONDON, July 18.—In the prize shooting at Wimbledon yesterday, Frank Hyde, American, won at 1,000 yards range for the prize given by Curtis & Harvey. Morse, American, and Adams, Canadian, and fourteen others, have all made the highest possible score at 800 yards for a prize given by Pegan, Wilks & Lawrence. Frank Hyde and six others have made the highest possible score at 900 yards for a prize given by Mr. Whitely. All these competitions will have to be finally decided on Monday next.

THE BUSINESS OUTLOOK.

A TABULAR COMPARATIVE STATEMENT OF FAILURES.

Failures for the First Half of the Year 1879—Encouraging Statistics for Future Business.

During the first six months of 1879 4,058 failures were reported in the United States, against 5,825 for the first six months of the previous year. The liabilities for the same period of this year are only $65,000,000, against $130,000,000 for the first six months of last year. The difference in favor of 1879 is 1,969 less failures, while the amount of liabilities shows a decrease of more than $65,000,000, one-half of what it was in the first six months of 1878. On every hand indications show an improvement in the business of the country. It is a long time since there has been so marked a falling off in mercantile disasters. It is true that the amount locked up in estates awaiting adjustment is a serious withdrawal from active capital, but the universal feeling of confidence in business circles more than counterbalances this obstruction to active business.

FAILURES IN CANADA AND THE UNITED STATES.

The following table shows the number of failures in this country and Canada for the last three months and for the last half year as compared with the figures for the same period in 1878:

States, Territories and Cities.	Total for 1st Six months of 1879.		Total for the First Six Months of 1878.

A DECIDED IMPROVEMENT.

According to these figures for the second quarter of the present year number 1,534, involving liabilities to the amount of $22,000,000—which is less than has been shown in any statistics for five years, as proved by the table printed below:

FIRST QUARTER.

Years.	No. Failures.	Amount of Liabilities	Average Liabilities.
1876	2,806	$64,644,156	$23,038
1877	2,889	54,538,074	19,010
1878	3,355	82,078,826	24,464
1879	2,524	43,112,666	17,081

SECOND QUARTER.

1876	1,794	43,771,273	24,398
1877	1,880	45,038,097	23,972
1878	2,470	48,753,940	19,738
1879	1,534	22,666,725	14,776

THIRD QUARTER.

1876	2,450	47,857,371	19,534
1877	1,816	42,346,035	23,318
1878	2,853	66,378,363	23,266

FOURTH QUARTER.

1876	2,042	34,844,893	17,064
1877	2,307	48,717,680	21,117
1878	1,800	37,172,003	20,651

To recapitulate, the number of failures for 1876 were 9,092, representing liabilities to the amount of $191,117,785, or an average of liabilities of $21,020. In 1877 there were 8,872 failures, involving $190,669,063 in liabilities, making an average of $21,491. In 1878 the failures numbered 10,478, covering liabilities to the amount of $234,383,132, or an average of $22,389. Compared with the second quarter of 1878, the difference in favor of the last three months is very marked, showing a decrease of more than 900 failures, with a decline in liabilities of $20,000,000 in a single quarter.

GENERAL GRANT IN CHINA AND JAPAN.

Unprecedented Homage in China---Treated Like a "Reigning Monarch" in Japan.

SAN FRANCISCO, July 17.—The steamer City of Pekin brings news from Hong Kong to the 29th of June. Gen. Grant, on his arrival at Tientsin, was greeted by an address from the foreign residents, delivered by the chairman of the municipal council. On May 30th a grand banquet was given by the Chinese authorities in honor of the distinguished visitor in the principal native tempie. The viceroy of Chihli, the commander-in-chief and grand secretary, Li Hong Chang, presided. No such attentions were ever before bestowed upon any foreigner at Pekin. General Grant during his stay occupied the American legation. Calls were exchanged between him and Prince Kong, a long interview taking place at Isung Li Yamen, in which many important public questions were discussed. He was also largely entertained by the highest native officials and by distinguished foreigners. The General left Pekin on June 10th for Tientsin, where he held a second extended conference with Li Hong Chang, who is unquestionably the foremost and most powerful subject in the empire.

YOKOHAMA, June 29.—General Grant arrived at Nagasaki June 21, in the Richmond, accompanied by the Ashuelot, the latter bringing Judge Denny, the United States consul at Tientsin, and other friends from China. No formal demonstration was made by former residents further than an address of welcome by a committee of thirteen, chosen to represent all alien nationalities there. Frequent entertainments were given by the Chinese. Owing to the prevalence of cholera at Hioga and vicinity the original arrangements were changed. The party will come direct to Yokohama and Tokio. They are expected here on the 4th of July. Extensive preparations have been made for the reception of General Grant, and although the guest of the nation, separate complimentary demonstrations are proposed. By imperial decree his reception is to be in all respects identical with what would be accorded the reigning monarch of any European country.

The conduct of the British Admiral Coates is severely criticised. This officer left Hong Kong immediately before General Grant's arrival here, did the same thing at Shanghai, and now suddenly starts on a pleasure trip from Yokohama. His action is understood to be in consequence of an unwillingness to give a salute of twenty-one guns. The British minister indorses his action by accompanying him on the present cruise. Governor Hennessey, of Hong Kong, who is now visiting Japan, strongly disapproves the proceeding, and is understood to have urgently remonstrated against it.

The Carpet-Baggers Organizing.

Washington Post.

The carpet-baggers of the South are beginning to organize for the next presidential campaign. They do not propose, so they say, to be "left" again, as they were in the counting in of Hayes; that in the next convention they intend to make their influence felt, and command from the nominee what they consider themselves entitled to. A meeting, or conference, of leading carpet-baggers was held at Old Point Comfort the other day to talk over the next presidential canvass and decide upon a candidate and policy. Among those present were Jorgensen, Platt and Stowell, of Virginia; Corbin and Chamberlain, of South Carolina, and men of the same character and fame from other Southern States. Kellogg, too, was represented, and the conclusion reached was that Senator Blaine is the candidate for the carpet-baggers. It was urged that he, as president, would use all the power of his office to restore the era of good stealing for these odorous politicians in the South. The conference was secret, and of course all the proceedings in detail cannot be had, but the Post has ascertained the most material points.

John Sherman and his avowed candidacy were discussed at length, and it was decided, with great unanimity, that he would not do as a candidate for the carpet-baggers. He was owned entirely by Wall street, and the money power had not evinced any affection for carpet-baggers, so it was said. It was agreed that the carpet-bag crowd should begin to hurrah for Hayes and lead him to believe that he was the man of their choice. This policy could be kept up for a few months; and it would result in creating a division between Hayes and Sherman. The idea advanced was to kill off John Sherman in the interest of Blaine, and the most effective way would be to inspire the Fraud with a belief that he could be renominated and thus lead him to antagonize his Secretary of the Treasury. Grant was talked of, but was discarded in spite of a few who warmly advocated him. The argument against him was that should he be re-elected he would "throw off" on the old crowd and endeavor to win the confidence of the country; that he would feel it necessary to separate himself from all the influences that brought reproach upon his former administration, and this would leave the carpet-baggers out in the cold. After canvassing the whole field, Blaine was selected as the man most likely to stand by the carpet-baggers, and the conference adjourned after swearing to stand by him.

Painless Death.

In one of his lectures Prof. Tyndall spoke of the great probability that entire absence of pain accompanied death by lightning. It is popularly supposed that an impression made by the nerves, a blow or puncture is felt at the precise instant it is inflicted, but such is not the fact. The seat of sensation is the brain, and intelligence of the injury must be transmitted to this organ through a certain set of nerves, acting as telegraph wires, before we become conscious of pain. This transmission or telegraphing from the seat of injury to the brain takes time, longer or shorter, according to the distance of the injured part from the brain, and according to the susceptibility of the particular nervous system operated on. Helmholtz, by experiments, determined the velocity of this nervous transmission in the frog to be a little over eighty-five feet per second, in the whale about one hundred feet per second, and in man at an average of two hundred feet per second. If, for instance, a whale fifty feet long were wounded in the tail, it would not be conscious of the injury until half a second after the wound had been inflicted. But this is not the only ingredient in the delay. It is believed that in every act of consciousness a determined molecular arrangement of the brain takes place, so that, beside the interval of transmission, a still further time is necessary for the brain to put itself in order for its molecules to take up the motions or positions necessary for the completion of consciousness. Helmholtz considers that one-tenth of a second is required for this purpose. Therefore, in the case of a whale, one second and one-tenth would elapse before an impression made upon its caudal nerves could be responded to by a whale fifty feet long.

How they Do it in Japan.

Shanghai Courier.

The Japanese method of keeping meat fresh in hot weather is just now attracting a good deal of attention in European circles. It consists in placing the raw flesh in porcelain vessels and pouring on it boiling water, whereby the albumen of the surface is quickly coagulated and forms a protection against the further action of the water. Oil is then poured on the surface of the water so as to prevent the access of air and consequent putrefaction of the meat. The system of protecting animal substances by securing coagulation of the albumen and the exclusion of air is no novelty; and it can hardly be supposed that we are indebted to the Japanese for its original adoption. But undoubtedly their method of applying it is far preferable to that practiced by ourselves in the process of preserving tinned meats, which appears to consist in boiling them for such a length of time that almost all their flavor is destroyed, and the ultimate result is a mass of tasteless shreds of muscular fiber.

North Carolina Women.

Charlotte Democrat.

It is reported that the most beautiful woman in England, called Mrs. Langtry, is soon to visit the United States. She is said to be so beautiful that people often pay high prices for the privilege of getting into her presence, or speaking to her or seeing her. We don't care how pretty she is or may be, we don't believe she is any prettier than hundreds of our hale, hearty, healthy North Carolina women.

Put some silks, ruffles and a few other simple "fixens" on some of our mountain women, and Mrs. Langtry might be considered second class. If Englishmen want to see real pretty women let them visit the South, and they will not, probably, make so much fuss over Mrs. Langtry.

THE WEEK'S MARKETS.

A STRONG CONTRAST WITH WHAT IT WAS LAST YEAR.

The Provisions Trade Demoralised--The Cotton Market Uneven and Fluctuating.

New York Public.

While there has been very little new or important elicited during the week in either trade or finance, it is generally conceded that the volume of business has been more than ordinarily large for the dullest season of the year. In fact, the condition of the markets is in such strong contrast with what it was last year, when the probabilities of resumption and the consequent uncertainties of investments and securities made the whole future prosperity of the country hinge on the ability of the Treasury to carry out the purposes of the law, that even with less activity than now the improvement would be everywhere acknowledged. The greatest encouragement is felt in the prospects of the fall season.

The provisions trade has been for the most part demoralized during the week, in consonance with Chicago, which was more unsettled than this market, on a panic there caused by the yellow fever scare, and the general countermanding of orders from the Southern States, and orders from there by telegraph to resell what Southern dealers had bought for future delivery. In breadstuffs there was an active and buoyant market for flour, the improvement in prices extending to all grades, though most conspicuous in the common and medium extras. Wheat was also firmer on the talk of a short crop in the west of Europe. Indian corn was fairly active, rye in good demand and oats firmer.

A fluctuating and uneven market has prevailed in cotton, and about the only developments confirmed previous impressions that the influences upon which the position changes are all within itself. The yellow fever stories from the South with the firmer tone given the cable advices from abroad may have helped the rise which took place at intervals, but these were not sustaining in the absence of a further direct demand. Outside circulation continues light.

The total receipts for the cotton week at all the ports, coastwise and by rail, footed up 3,082 bales (last week 3,008), as against 5,287 same week last year, a decrease of 2,255 bales. The total receipts for the expired portion of the cotton year amount to 4,427,372 bales, as against 4,248,551 bales for the previous year, showing an increase this year over last of 179,021 bales. The exports for the week were 9,554 bales, or 4,391 bales ahead of last year. The total amount of cotton out of the present crop marketed abroad thus far, is 3,355,756 bales, or 61,009 more than last year. The present stocks in port amount to 167,596 or 21,130 bales more than at this time last year. The total quantity of cotton in sight is 1,487,909 bales or 267,401 behind a year ago.

Business in dry goods continues light with the commission houses, and the usual "between seasons" quiet is still reported in the jobbing branches of the trade. Package buyers from the South and Southwest are arriving in fair numbers, but the rumored appearance of yellow fever at Memphis has rendered them somewhat cautious in the operations. There is still a steady movement in the most staple goods on account of former orders, and values are firmly maintained by both agents and jobbers.

Tar Heels Abroad.

Charlotte Democrat.

Colonel Isaac Shelby, Jr., the only living child of the celebrated hero, Colonel Isaac Shelby, who fought at King's Mountain in October, 1780, is now living near Danville, Ky., and is about eighty-nine years old. Colonel Isaac Shelby, Sr., we believe, was the first Governor of Kentucky. North Carolina stock prospers everywhere and holds out well.

Ex-Governor William Allen, who died the other day at an advanced age, in Chillicothe, Ohio, was one of the most remarkable men the United States ever produced. Leaving North Carolina when a poor, gawky-looking boy, he went to Lynchburg, Va., and from there to Ohio, where he became the leader of the Democratic party, and filled the offices of Legislator, Congressman, Governor and United States Senator—the duties of all which he discharged honestly and faithfully. Boys, be sure to be honest and truthful—die rather than steal or tell a lie; *and always be ready to die.*

"Some" Clover.

Also some five feet clover raised in Nash county by Mr. T. P. Braswell. Think of clover in Nash county attaining such a marvelous growth.—*Raleigh Farmer and Mechanic.*

Mr. Braswell is the man to do it, if any body can. We venture to assert that B. H. Bunn and G. N. Lewis have it equally as good.—*Tarboro Southerner.*

The NEWS helped Mr. Braswell to raise that clover; not the *Farmer and Mechanic.*

The Poor School Children.

DAILY NEWS

HUSSEY & JORDAN, PROPRIETORS

JOHN B. HUSSEY, - - Editor.

SATURDAY, - - - JULY 19, 1879.

BUSINESS PROSPECTS.

The *Herald's* report of the business outlook, printed in the NEWS this morning, is decidedly encouraging. There is no other available standard by which the general condition of business can be so accurately gauged as by the number of failures that occur during a stated period and the amount of liabilities involved. Applying this rule to the three months just elapsed, we find that they show an astonishing decrease not only in failures but in average liabilities from the exhibit of any previous quarter during five years.

Extending the periods of comparison to six months, we perceive that the total liabilities embraced from January to July, 1879, are only $65,000,000, as against $130,000,000 for the corresponding term in 1878.

Is not the outlook encouraging? What say the growlers and agitators?

SHERMAN AND COLLECTOR POWERS.

"Veteran politicians are not expected to be very observant of the minor proprieties of life. But the oldest and most hardened of them have usually shrunk from proclaiming themselves candidates for the Presidency a year in advance of a possible nomination. At least the affectation of not seeking the great office has been counted a virtue among that class. If delicacy did not dictate such a reserve, or the pretense of it, good policy would require outward conformity to this proper usage. Secretary Sherman has made a departure from these respectable precedents. He takes frequent occasion by letters and authorized reports of interviews, to inform the people that he is a Presidential candidate. Within a month past this fact has been nauseatingly reiterated in many ways, evidently with Mr. Sherman's consent. The latest instances is his denial to a *Times* correspondent of a report that Collector Powers, of North Carolina, had been removed because he was an anti-Sherman man, coupled with a new declaration of his candidature. The Secretary is good enough to assure us that he will not consider opposition to his nomination as a sufficient reason for turning out subordinates. He actually asks the public to believe that it will make no difference to him—after he has declared himself a candidate—whether his army of office holders marches with or against him. His explanation will not pass unquestioned among people who know politicians well and are long experienced in the ways of Mr. Sherman. Nobody can prove that Collector Powers lost his office because he opposed the Secretary's Presidential pretensions. But would he not have been retained had he been a Sherman man? We have no doubt of it. It is not according to human nature that an avowed candidate for an office should deliberately part with any of the helps to his ambition. Mr. Powers, had his career not been cut short, would probably be a member of the next Republican National Convention, and a useful place in the Secretary's game. Whether he was removed for the reason alleged or not matters little, however, in the sequel. The disclaimer of the Secretary is quite as suggestive as the warning to the mob *not* to hold their victim under the pump. The office-holders who bask in Mr. Sherman's favor now understand the tenure of their positions. They are quick to take hints and to read between the lines. They will interpret this very disclaimer made to the *Times* correspondent, taken with the context, as a caution to themselves. Having a clear perception of the side on which their bread is buttered, they may be trusted not to expose themselves too freely to the fate of Collector Powers. Secretary Sherman's candidature may be to himself only a delusion. But to the great public it is a very real thing if it leads, as it can hardly fail to do, to any further neglect of official duties among the thousands of men to whom the Secretary is chief in consequence of the new devotion to his political fortunes now expected of them. —*N. Y. Journal of Commerce.*

Unquestionably the *Journal of Commerce* has got at the true inwardness of Powers' removal. The local press in Powers' district, supposed to be informed, agree that he made a most efficient and exemplary officer. The New Berne *Nut Shell* says he received from Sherman's department a few days before his resignation was demanded a "very handsome letter complimenting and congratulating him upon the uniform good conduct of his office, and the satisfactory and gentlemanly manner in which he had discharged the duties of collector."

The Goldsboro *Messenger* and North State *Press* testify to his efficiency and popularity. The *Press* thinks that Joe Martin, the *prima facie* member of Congress from the 1st District, is at the bottom of it. The *Press* is not far wrong in its conjecture. Martin is understood in Washington to be an avowed Sherman man and has bargained with Sherman for patronage.

There is walking ahead for sometimes.

HOT WEATHER OBSERVATIONS.

MECKLENBURG.

Friday and Saturday, July 11th and 12th, were the hottest days ever felt about here, and was extraordinary for this section—the thermometer ranging from 98° to 103° in the coolest buildings. —*Charlotte Democrat.*

The season in Mecklenburg has been a very singular one. There has been an entire absence of general rains, yet in some sections the local rains have been so frequent that crops have not been injured materially. In others the cotton and corn are burning up. In Paw Creek and portions of Steel Creek there has been no rain worth mentioning since the night of the 20th of May. The cotton generally has borne the heat better than the corn, the slight sprinklings which it has occasionally received serving to keep it alive. From the above it can be judged that the Mecklenburg farmers are not in first-class spirits over the crop prospects, though some of them are willing to acknowledge that the outlook might be worse.—*Charlotte Observer.*

EDGECOMBE.

Torridity; frying, sizzling; hot as hen a laying; crop of sweat fully ripe; thermometer 100° yesterday.—*Tarboro Southerner.*

WILMINGTON SECTION

During a short drive in the country yesterday we were astonished at the evidences everywhere visible of the terrible effects of the heat and drought Mr. J. F. Garrell has one hundred and twenty acres in corn, the most of which is literally dying, the tassels in many instances being parched to such a degree that they have assumed a perfectly white appearance. With the best of seasons to follow he does not expect to realize a half crop. The watermelon vines are also nearly all dying.—*Star.*

The warm dry weather is bringing out sickness in the country in the way of intermittents and also bilious fever. So many cases as we hear of are unusual thus early in the sickly season. The weather has been unusually hot of late. Last Saturday is pronounced by some of our oldest people and others to be the hottest day of their lives. It is an extraordinary fact, considering the intense heat of the month past, that no fatal cases of sunstroke have been reported in this section of the country.—*Wilmington Review.*

The suffering in the animal and vegetable kingdoms around Goldsboro is represented as being intense. It is said if it does not rain in a week, or ten days at the furthest, that the corn crops in that section will be an utter failure. —*Ibid.*

IREDELL.

The heated term last Friday and Saturday extended over the United States. In this locality the thermometer ranged higher than recollected by the oldest inhabitant. General R. A. McLaughlin informs us that at his residence in the country, in a cool hallway, where the mercury never rose above 98° it reached 101°. It is barely possible that another spell will be so warm this summer. The 12th of July will long be remembered as the "hot Saturday."

FORSYTHE.

Fine rains on Saturday and Sunday evening. In some localities some five miles below town, a considerable storm prevailed, blowing and breaking down corn and washing the ground considerably. A good steady rain is much needed, to secure good upland crops, and to enable the farmers to turn clover and stubble ground.—*Salem Press.*

THE TYPOGRAPHICAL UNION.

The Union printers who have lost good situations on the Boston *Post* are preparing a statement of their grievances for public information. They will, of course, claim that they are victims of great tyranny and injustice in being summarily deprived of work by a newspaper in whose office they have been so long employed that they feel as if they owned it. The *Post* will, doubtless, make its own answer to the forthcoming document, and is perfectly capable of fighting its own battles. We do not propose to anticipate the interest of its reply or take any particular part in its quarrel with the Union printers. But we cannot forbear to point the moral of the occurrence which has proven so serious to the old hands of the *Post*. They belong to a Union which, in the days of its strength, affected omnipotence so successfully that it made itself feared and obeyed by nearly every newspaper in the United States. The *Journal of Commerce* was the only daily in New York which dared to defy and resist it. In those days and since, wherever the Typographical Union has found newspaper proprietors weak and nervous, it has dictated to them the most oppressive and humiliating terms, and has always been ready to punish any resistance to its despotism by the instant stoppage of work and by extreme acts of violence.

The Typograpical Union never considered for a moment the interest of employers, but only its own. Such an organization by a thousand acts puts itself beyond the pale of the ordinary courtesies and consideration to which men who have done faithful service are entitled by the usages of trade. "Might makes right" has always been the motto of the Union, and it would be more becoming in its members when they are beaten at their own game by the superior nerve and tact of newspaper proprietors to take their punishment quietly like men.—*N. Y. Journal of Commerce.*

Like the *Journal of Commerce* the NEWS, acting upon the principle that it had an unquestionable right to manage its own business, dared to defy and resist the Union.

The NEWS pays every cent for its composition that it can afford to pay. And it may be added that its force receives as much compensation as some Union printers. It does as good work and as much of it, and is composed of young men of exceptionally good character. The NEWS, prefers to manage its own affairs, with all deference to the printers' Union.

THE N. Y. *Star* publishes an autograph letter from ex-Congressman Glover. It is to the effect that the entire suppressed report of his committee on expenditures in the Treasury Department will be given to the papers in a short while Glover is an 'irrepressible cuss' and will make somebody howl before this ugly business is through with.

WITH such astute politicians as Joe Martin to distribute his patronage and "manage" for him, Sherman can hardly fail to make the nomination. Joe is a guileless fellow but mighty shrewd—where Joe is concerned. He knows the strength of the Quaker vote in the first district.

THE Charlotte *Democrat* adds the weight of its discriminating judgment to what Duffy said about our daily press. We'll see the brethren at the Press Convention. What was it the Governor of North Carolina said to South Carolina's Chief Magistrate?

MR. JOSEPH J. MARTIN publishes a card in the Tarboro *Southerner* denying that he has appointed a Virginia boy to the Naval Academy. Will the jocund Joe deny that the appointment of Pinckney Rollins (of Asheville) in Sherman's department was not credited to him?

WHITE, Powers' successor, is said to be a Quaker. The Quaker vote in the first district is considerable. Joe Martin has been smart enough to delude Sherman—sly old fox as he is—that he could control that vote. Ha, ha!

SHERMAN tells the New York *Times* that he will not remove the anti-Sherman men in office. Then, why Powers' removal? If we mistake not the signs of the times there is to be "a rattling of the dry bones."

GUILELESS Joe Martin, as some people consider him, had the shrewdness to make a good trade with Sherman. He traded off Powers for White—a Martin and Sherman man.

"99 IN the shade" is the biggest boom just now.

FALL overcoats yesterday. A delightful climate this.

Judge Schenck.

Charlotte Democrat.

Judge Schenck's name having been frequently mentioned in connection with a seat in Congress from this District, we will state that we are authorized to say that Judge Schenck is not an aspirant for that position, and that he will not be a candidate before a nominating Convention next year.

Medical.

THE GENUINE

DR. C. McLANE'S

Celebrated American

WORM SPECIFIC

OR

VERMIFUGE.

SYMPTOMS OF WORMS.

THE countenance is pale and leaden-colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eyes become dull; the pupils dilate; an azure semicircle runs along the lower eye-lid; the nose is irritated, swells, and sometimes bleeds; a swelling of the upper lip; occasional headache, with humming or throbbing of the ears; an unusual secretion of saliva; slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach, at others, entirely gone; fleeting pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times costive; stools slimy, not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult, and accompanied by hiccough; cough sometimes dry and convulsive; uneasy and disturbed sleep, with grinding of the teeth; temper variable, but generally irritable, &c.

Whenever the above symptoms are found to exist,

DR. C. McLANE'S VERMIFUGE will certainly effect a cure.

IT DOES NOT CONTAIN MERCURY

in any form; it is an innocent preparation, *not capable of doing the slightest injury to the most tender infant.*

The genuine DR. McLANE'S VERMIFUGE bears the signatures of C. McLANE and FLEMING BROS. on the wrapper. —:o:—

DR. C. McLANE'S

LIVER PILLS

are not recommended as a remedy "for all the ills that flesh is heir to," but in affections of the liver, and in all Bilious Complaints, Dyspepsia and Sick Headache, or diseases of that character, they stand without a rival.

AGUE AND FEVER.

No better cathartic can be used preparatory to, or after taking Quinine.

As a simple purgative they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated.

Each box has a red wax seal on the lid, with the impression DR. McLANE'S LIVER PILLS.

Each wrapper bears the signatures of C. McLANE and FLEMING BROS.

Insist upon having the genuine Dr. C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name ***McLane,*** spelled differently but same pronunciation.

VEGETINE

Purifies the Blood, Renovates and Invigorates the Whole System.

ITS MEDICAL PROPERTIES ARE

Alterative, Tonic, Solvent

AND DIURETIC.

Vegetine **Reliable Evidence.**

Vegetine

Vegetine MR. H. R. STEVENS:

Vegetine Dear Sir—I will most cheerfully add my testimony to the great number I have already received in favor of your great and good

Vegetine medicine, VEGETINE, for I do not think enough can be said in its

Vegetine praise, for I was troubled over thirty years with that dreadful

Vegetine disease, Catarrh, and had such bad coughing spells that it would seem

Vegetine as though I never could breathe any more, and VEGETINE has

Vegetine cured me; and I do feel so thank God all the time that there is so

Vegetine good a medicine as VEGETINE, and I also think it one of the best

Vegetine medicines for coughs and weak, sinking feelings at the stomach,

Vegetine and advise everybody to take the VEGETINE, for I can assure them

Vegetine it is one of the best medicines that ever was.

Vegetine MRS. L. GORE,

Vegetine Cor. Magazine and Walnut sts., Cambridge, Mass.

Vegetine GIVES

Vegetine **Health, Strength AND APPETITE.**

Vegetine My daughter has received great benefit from the use of VEGETINE. Her declining health was a source

Vegetine of great anxiety to all her friends. A few bottles of VEGETINE restored her health, strength and

Vegetine appetite.

Vegetine N. H. TILDEN,

Vegetine Insurance and Real Estate Ag't., No. 49 Sears' Building, Boston, Mass.

CANNOT BE EXCELLED.

CHARLESTOWN, Mar. 19, 1869.

H. R. STEVENS:

Dear Sir—This is to certify that I have used your "Blood Preparation" in my family for several years, and think that, for Scrofula or Cankerous Humors or Rheumatic affections, it cannot be excelled; and as a blood purifier or spring medicine, it is the best thing I have ever used, and I have used almost everything. I can cheerfully recommend it to any one in need of such a medicine.

Yours respectfully,

MRS. A. A. DINSMORE,

No. 19 Russell street.

RECOMMEND IT Heartily.

SOUTH BOSTON, Feb. 7, 1870.

MR. STEVENS:

Dear Sir—I have taken several bottles of your VEGETINE, and am convinced it is a valuable remedy for Dyspepsia, Kidney Complaint and general debility of the system. I can heartily recommend it to all suffering from the above complaints. Yours respectfully,

MRS. MUNROE PARKER,

86 Athens street

PREPARED BY H. R. STEVENS, BOSTON, MASS.

ENGINES portable and stationary, SAW MILLS, GRIST-MILLS, BOILERS, CASTINGS of BRASS and IRON, FORGINGS &c. MACHINERY for Gold and Coal Mines Blast Furnaces, &c.

We call special attention to our IMPROVED PORTABLE ENGINE, for agricultural and other purposes. The Boilers of our Agricultural Engines are provided with our Patent Premium SPARK EXTINGUISHER, a device by which the Sparks are forced to pass downward over a reservoir of water and effectually extinguished without the use of wire gauze. Our is the only arrangement of this kind which affords free access to the boiler tubes for cleaning from each end. The officers of a large number of the best Insurance Companies pronounce this Spark Extinguisher perfect in its operations.

New styles SMALL LOCOMOTIVES for hauling lumber, and other articles upon tramways and narrow gauge railways.

The best Planters regard our GINNING ENGINES superior to any in use. Send for illustrated Catalogue free. Other things being equal encourage Southern institutions.

Repair work solicited and promptly done. Shafting, Pulleys, &c., for Gin Houses.

GINNING AND THRESHING MACHINES

A SPECIALTY.

Repairing Promptly and Carefully Done.

Talbott's Patent Spark Arrester,

THE INVENTION OF THE AGE.

Talbott's new Patent Spark Arrester is really the only perfect and reliable one, and is superseding all others in use. The great efficiency of this Arrester is attracting universal attention, and is being endorsed by the best mechanical engineers and insurance companies. Its prominent features are:

It does not destroy the draft.

It does not interfere with cleaning the tubes.

It will not choke up, and requires no cleaning.

It requires no direct dampers to be opened when raising steam (dampers being objectionable, as they may be left open and allow sparks to escape.)

It requires no water to extinguish sparks, which, by condensation, destroys the draft. Besides, when water is used, if neglected, the efficiency is destroyed by evaporation of the water, and the boiler is kept in a filthy condition.

It is simple and durable, and can be relied upon.

It can be attached to any boiler.

No planter should be without one of them. Insurance companies will insure gins and barns where the Talbott Engines and Spark Arresters are used at same rate as charged for water or horse-power.

Send for illustrated circulars and price list.

A Summer-Cloud.

Screened by broad boughs from the too potent heat,
In "sweet-do-nothing" reverie I lay,
Half-fancying I saw the Summer-day,
In air embodied, and with wing-ed feet,
Glide toward the West with step both light and fleet,
And garments glittering in the sun's bright ray.

Still musing, on my inattentive ear,
O'er the soft evening-hush, began to swell
A long-drawn muttering low, that seemed to tell
Of far-off trouble in the atmosphere;
Then, suddenly, a roar, that far and near
Echoed across the sky, dispersed the spell.

And pitiful the sight I now beheld!
Down in the South a huge and hoary cloud,
Towering aloft, white-faced, with shoulders bowed,
That fain would fly, but, by some power compelled,
Lagged helplessly along the course it held,
While, stricken with sore pangs, it bellowed loud.

All ruthlessly the hidden foe pursued,
His deadly presence momently betrayed,
When from its sheath flashed forth his levin blade,
And to the giant's very vitals hewed—
Who answered each sharp thrust with roarings rude
Of raging pain and impotence dismayed.

By a strange fascination thrilled and bound,
I watched the strife of the aerial foes—
The vengeful stab, the victim's shuddering throes—
Saw the warm flood pour through the gaping wound,
And heard, or seemed to hear, the rushing sound
Of his violent breath, as when a swift wind blows.

So passed the cruel tragedy in air,
And I, its witness, gazed and listened still,
Until my brooding pity lost its will
To follow the unequal contest there
To its sure end—a giant prostrate, where
The East wind spread its pall of vapor chill.

Hot Weather Blessings.

Washington Post.

It should reconcile the average reader to the intense heat which we are now enduring to reflect that, without it, there could be no corn. A hot summer means an abundant corn crop, and plenty of that cereal will give the country cheap whisky. This should be satisfying to the natural man.

Medical.

TUTT'S PILLS

INDORSED BY
PHYSICIANS, CLERGYMEN AND THE AFFLICTED EVERYWHERE.
THE GREATEST MEDICAL TRIUMPH OF THE AGE.

TUTTS' PILLS CURE SICK HEADACHE.
TUTT'S PILLS CURE DYSPEPSIA.
TUTT'S PILLS CURE CONSTIPATION.
TUTT'S PILLS CURE PILES.
TUTT'S PILLS CURE FEVER AND AGUE.
TUTT'S PILLS CURE BILIOUS COLIC.
TUTT'S PILLS Cure KIDNEY Complaint.
TUTT'S PILLS CURE TORPID LIVER.
TUTT'S PILLS IMPART APPETITE.

Dr. TUTT has succeeded in combining in these pills the heretofore antagonistic qualities of a STRENGTHING, PURGATIVE, and a PURIFYING TONIC.

Their first apparent effect is to increase the appetite by causing the food to properly assimilate. Thus the system is nourished, and by their tonic action on the digestive organs, regular and healthy evacuations are produced.

The rapidity with which PERSONS TAKE ON FLESH while under the influence of these pills, indicates their adaptability to nourish the body, hence their efficacy in curing nervous debility, melancholy, dyspepsia, wasting of the muscles, sluggishness of the liver, chronic constipation, and imparting health & strength to the system. Sold everywhere.

Price 25 cents.
Office
52 Murray Street, NEW YORK.

ONE OF THE MOST IMPORTANT DISCOVERIES

of the nineteenth century, and one that takes equal rank with the invention of the telephone, the electric light and other scientific marvels of the age, is that of

Henry's Carbolic Salve.

This Compound possesses the most remarkable Healing Properties of any known agent employed for the purpose of curing

SORES, WOUNDS, CUTS, BRUISES,

Inflamed and abraded surfaces, and for

ALL SKIN DISEASES.

Its cleansing properties remove all impurities that hinder the formation of healthy flesh, and the work of cure goes on to completion with most **Wonderful Rapidity.** Let no family be without a box of it in the house. Physicians extol its virtues; and the thousands who have used it unite in recommending it Beware of Counterfeits.

Ask for Henry's Carbolic Salve, and take no Other.

WALTON & PEA SON, Proprietors.

This noted watering place has been open since the 20th of May last. The Hotel building is large, well constructed and arranged with a view to the greatest convenience of its guests. The rooms are spacious, each being 18 x 20 and 17 feet high in the lower stories. All the furniture is new, with spring beds. The cuisine is superior, and one of the most experienced pastry cooks in the South has been engaged for the season.

The Springs are situated eight miles from the Alpine Station on the W. N. C. R. R. on South Mountain, at an elevation of 1,800 feet above the sea level. The road from the station is in fine order, and good comfortable stages with experienced drivers will connect with every train

BUFFALO LITHIA WATER,

As a General Remedial Agent in Chronic Diseases.

It is confidently claimed for these waters, and the claim though a strong one is substantiated by the testimony of many of the most eminent medical men of the country, both North and South, that in the following enumerated diseases: Affections of the Kidneys and Bladder, especially in Stone or Gravel, Dyspepsia, Rheumatic Gout, Rheumatism, Paralysis, Malarial Fevers in their chronic form, Dropsical Effusion, Uremia or Uremic Poison, Chronic Cutaneous Eruptions, and in the Functional Diseases peculiar to Women, more especially in al Disorders of the Menstrual Function. They have accomplished results as remarkable as were ever accomplished by any remedial agent whatsoever, whether in materia medica or among mineral waters. They are confidently recommended by some eminent medical men as a preventative of the disturbance and dangers incident to Pregnancy.

These waters, in cases of the dozen half gallon bottles, $5 per case at the Springs. Pamphlets sent to any address. Springs open for guests 1st day of June.

THOMAS F. GOODE,

ATLANTIC HOTEL,

BEAUFORT, N. C.

NEW MANAGEMENT.

Open the 1st of June under the management of the undersigned. A first class seaside resort and the most pleasantly situated house on the Atlantic Coast. The tide ebbs and flows daily beneath the building, and it is free from dust, flies and mosquitoes. The ball room is the most spacious and airy in the State. A good band of music has been engaged for the season. Surf bathing unsurpassed, with suitable dressing houses on the beach. Bath houses also within fifty yards of the house for still water bathing. Large and airy rooms also in the building occupied by the Proprietor the past two seasons, which can be had by those who prefer rooms on the mainland.

BAR, BILLIARDS AND TEN-PINS.

TERMS—$2.50 per day; $12.00 per week. Special rates made with Excursionists and for parties for more than one week.

Important to Fish Buyers.

THE fishermen and those directly interested in the fisheries of Carteret county, having organized a "Fishermen's Union," are now prepared to furnish fresh and salt fish to dealers at fair prices, and from first hands. Parties desiring to purchase will do well to send in their orders, and get fish from those who catch and put them up. Every package guaranteed to be as represented.

Address all orders to the
FISHERMEN'S UNION,
Beaufort, N.

DAILY NEWS

SATURDAY, - - - JULY 19, 1879.

Weather Report.

WASHINGTON, July 18.

For the South Atlantic States, local rains and partly cloudy weather, variable winds, mostly from the east to south, stationary or a slight fall in the temperature, and during Friday rising barometer.

Thermometrical Table.

The thermometer, at L. Branson's bookstore, ranged as follows yesterday:

9 A. M.	78
12 "	78
3 P. M.	78
6 "	76

Index to New Advertisements.

SIMMONS & DICKINSON.—Lottery.

LOCAL BRIEFS.

——The "pointing" of the mason work of the United States Court House and Post Office will be completed to-day.

——The colored firemen feel grateful for the aid extended them by the Board of Aldermen, as well as for other favors.

——Quarterly meeting at Person street church to-day. The Rev. Dr. N. H. D. Wilson will preach at 11 o'clock, and also to-morrow, both morning and evening.

——Raleigh was not a very lively place yesterday. If it had not been for the equestrians the northern part of the city would have appeared deserted.

——The enterprising firm of R. B. Andrews & Company show unmistakable signs of life. They received a large shipment of summer and fall cassimere suits which are marked down to the very lowest figures. It is surprising to see how cheap clothing is sold.

——Mr. Moore, of Apex, yesterday stated that the storm that visited that place was quite severe, and was about half a mile in width. It uprooted eight or ten trees in the village, threw over about a dozen outbuildings, and prostrated fences. There was no one hurt so far as Mr. Moore had heard.

——The NEWS sometime since alluded to the fact that Patrick O'Brien who used to live in this city, and brother of the late California millionaire, had compromised his claim for $600,000.00. He never lived to enjoy his money, having died one day last week, just exactly 24 hours before the money was paid over to his wife and daughter.

——The inclosure in the rear of the Government building was yesterday sown down in blue grass. Frank Bryant, who had charge of the grading of this lot, has certainly made a capital job of it, and thinks it will present quite a different appearance from what it did a week ago.

——Major Crenshaw and lady, of Forestville, arrived in the city yesterday en route home, from a Southern tour. While on a visit to friends on the Pee Dee river, they attended a large picnic at Stanback's Ferry, in Anson county, where over 600 people were gathered to enjoy a day of sport. Major Crenshaw states that the county in that section is more prolific than it has been in years. Splendid rains and a rich soil have made the Pee Dee district the garden spot of the State.

——Manager Starke, of the Western Union Telegraph Company, is off for a vacation. The telephone business is now attracting his attention, and he proposes visiting Petersburg and Norfolk, and while there he will investigate the workings of the lines in operation at those places. The Major at one time essayed to reach the position of the leading agriculturist of Wake county, but he weeded his onion bed and left the weeds standing, and the sun burned his pumpkin bushes to a blister, and he finally arrived at the conclusion that he could purchase roasting ears cheaper than he could raise them; so he has laid his quarter-acre farm on the shelf and will hereafter devote himself wholly to the manufacture of traveling lightning. During his absence his eldest son, James E. Starke, who has been at Henry Station for some time past, will serve as a substitute for his father.

Elegant Cards.

Mr. Hampton, of the NEWS Job Office, has presented us with a package of elegantly printed visiting cards. He turns out the best work and does it cheap.

Iron for the Western Road.

There is 5,502,950 tons of iron in Salisbury for the Western North Carolina railroad. President Wilson confidently expects to have the track laid to Asheville this fall.

Off for Europe.

Mr. Bryant, the agent of the Southern Express Company in this city, and Masters William Tucker and J. G. Williams left town yesterday for an European trip.

Justice's Court

Justice Barbee had Emanuel Womack before him yesterday upon a charge of abandonment. He was treated to a lecture on "The duties of husbands to their wives"—Justice B. lectured—and released upon payment of costs, the fee for the lecture being nominal.

St. Swithin's Day.

Tuesday last was St. Swithin's day, and be it remembered:

Saint Swithin's Day, if thou dost rain,
For forty days it will remain;
Saint Swithin's Day, if thou be fair,
For forty days 'twill rain na mair.

Yesterday's gentle showers show that there is more poetry than truth in the above.

Always Gives Satisfaction.

The "Champion Violet Writing and Copying Ink" will always give satisfaction. A perfect copy can be taken several months after the writing, and several copies can be made at different times from the same writing, which can not be done with any other copying ink. The color is a rich violet, the flow is perfectly free, and the ink never blots in taking copy. Price, quarts, $1.50: pints, $1.00. Sold by Alfred Williams & Co., Raleigh, N. C.

Mayor's Court.

Philip S. Baker, charged with larceny, held in $50 for appearance at court. Bail was furnished and he was released.

The case of Eliza Freeman, arrested several days ago on a warrant issued on affidavit of Alice Christian, charging Eliza with holding unlawful relations with her husband, Henry Christian, was continued till this morning, on account of the illness of the accused.

The Mayor issued several notices of nuisance, and Sanitary Officer Goodwin was directed to inspect certain premises.

Over the Ridge.

President Wilson has scored another tally in his work on the Western North Carolina railroad. The track has been laid, and on Monday the train will take passengers to "Grey Eagle," a distance of fourteen miles from Henry's and fifteen miles from Asheville. The staging from this point to Asheville is over a comparatively smooth and well graded road. At the Swannanoa tunnel passengers are allowed their option in the matter of transfer. They can make the subterranean passage or climb the enchanting mountain. The night trains over this road are now provided with sleepers. With the road bed greatly improved and new coaches a trip to the mountains is pleasant.

Picnic at Faison's Farm.

Yesterday the children of our Jewish residents had a delightful time at Faison's farm, some six miles outside the city. In the morning it rained somewhat, and threatened to mar the anticipated pleasures of the day, but it lightened up about noon, and left the day sufficiently cool to be enjoyable. There were some fifty to sixty children present, as well as their parents and invited guests. The picnic was under the management of Mr. Isaac Œttinger, who looked well and faithfully to the comfort of the little ones. Among those present from out of town were Miss Mettie Rosenthal and Mr. Œttinger, from Wilson, and Messrs. D. W. Œttinger, and Sol. Einstein, from Goldsboro.

A Valuable Periodical.

The July number of the *American Journal of the Medical Sciences* has been received. It is a large quarterly of two hundred and ninety-six pages, and is replete with information for the surgeon and physician, the index alone covering four pages. The publisher asks to be sustained by the profession in the effort to present this enormous amount of valuable practical matter, notwithstanding the increase in the cost of manufacture, at a price without example in the annals of medical journalism. For sale by Alfred Williams & Company.

Chesapeake & Ohio Railroad.

The NEWS is the recipient of an elegantly gotten-up handbook of travel for those who desire to view the natural scenery of western Virginia. It is profusely illustrated with engravings of various points of interest along the route, conspicuous among which are Staunton, Ferrol Furnace iron mines, Jefferson's old mill at Shadwell, Washington-Lee University, and Miller's Ferry from the "hawk's nest." There is a large amount of information conveyed in its pages, and is what it represents to be—a guide-book for points of interest along the Chesapeake & Ohio Railway.

The Western Insane Asylum.

The efficient secretary of the Asylum, Mr. Dickson, was in the city yesterday on official business. We learn from him that the work on the Asylum is progressing finely. The walls of the southern wing are up and roofed; the walls of the second story of the central building, set apart for the employees and officers of the institution, are up. The south wing contains about 200 cells. Over two million brick have been made this summer. When completed this magnificent structure will be nine hundred and eighteen feet long, 200 feet longer than the capitol at Washington, containing four hundred cells. Two hundred and twenty-five hands are now employed in its construction. The secretary speaks hopefully of its future.

Bingham School.

We learn that Major Bingham has secured a graduate of a German University as a teacher in his school, a thing which, as far as we know, no other school in the State and but one of our colleges has done.

The faculty will consist of Major R. Bingham, A. M., Superintendent.

Professor R. B. Willis (Bingham's and University of Virginia).

Professor M. C. S. Noble (Bingham's, Davidson College and University of North Carolina).

Professor R Sharp, A. M. (Randolph-Macon College and University of Leipsic).

With such a faculty the superintendent feels assured that the future of his School will excel its past.

For the Seashore.

The most attractive excursion of the season will take place on Thursday, July 31st, to Morehead City and Beaufort. Round trip tickets are sold at all the principal stations west of this city, good for fifteen days. The attractive features of this excursion are blue fishing, gathering shells, gunning, surf-bathing, and an opportunity to visit Fort Macon, the light house at Cape Lookout, the signal and life-saving stations, and other points of interest on the Atlantic Coast. The first grand dress ball of the season will be given at the Atlantic Hotel, Friday, August 1st. This excursion being under the auspices of the Railroad Company, and on regular passenger trains, patrons are assured first-class accommodations and strict discipline. A sufficient number of first-class coaches reserved for ladies with escorts and for families. Excursionists can return on any regular train until August 14th inclusive. Fare from Raleigh $3.

HOTEL ARRIVALS.

YARBOROUGH HOUSE—Dr. G. W. Blacknall, Proprietor.

Resignation of the Fourth Auditor.

Judge Stephen J. W. Tabor, of Iowa, who has been fourth auditor of the Treasury for the last sixteen years, having been appointed by Mr. Lincoln, has sent in his resignation, to take effect August 1st. He is in bad health. His place has been eagerly coveted by aspirants over on hand to root out sick officeholders, and never too good to thin out the healthy ones by giving every man a broken-down or superannuated reputation who happens to look sick or fagged out. It is intimated that the judge's place is wanted for a more active politician. Meantime it is said that his deputy, N. B. Moore, will be promoted.

The Fair Normalites.

Tarboro Southerner.

The *Nut Shell* says Rev. John R. Brooks will address the Normalites at Chapel Hill by invitation of President Battle. Some of them are quite good looking, and will not be hard to address.

They are learning on the other side of the water which is the genuine and which is the spurious Smoking Tobacco. Orders are coming in daily from foreign countries for Blackwell's Fragrant Durham Bull Smoking Tobacco.

Good Results of Life Insurance.

Another practical illustration of the value of Life Insurance is found to exist in the fact that the Ætna Life Insurance Company through their General Agent, W. H. Crow, has just paid $2,000 for a policy on the life of Colonel Joel Laflin, deceased, and also has in hand $5,000 to pay Mrs. Englehard for a policy upon the life of her late husband, J. A. Englehard, Esq., Secretary of State at the time of his death. Major W. H. Crow will be pleased to see or hear from any parties desiring to make a safe and judicious investment in this old and truly worthy institution which has been managed by him in North Carolina and Virginia for fourteen years.

Patronized by the Ladies.

Dr. Price's Special Flavoring Extracts are used by the most intelligent ladies in this country. A few cents additional cost does not deter ladies who are mindful of the health of their family from procuring that which is known to be pure and wholesome. 2t

Trunks, Valises and Satchels at cost to close out the stock at
HELLER BROTHERS.

My facilities for the delivery of the above in bottles or kegs, are superior to any in the State. Prices as low as the lowest. Country orders solicited.
M. BILLS, Raleigh, N. C.
City Botling Works.

A Card.

To all who are suffering from the errors and indiscretion of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, Free of Charge. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. Inman. Station D., New York City.

BOVINE, MISSISSIPPI, April 22, 1879.—The following correspondence will explain itself: A. WADDILL, ESQ., LYNCHBURG, VA.—Dear Sir: Observing a certificate from you in reference to the "Iron and Alum Mass," of the Seven Springs, in Washington county, Va., in relation to its efficacy for Liver Diseases, would you have the kindness to inform me whether you used the "Mass" or the "Water;" also, a description of the symptoms and such other information as you may deem pertinent. I am a long-time sufferer with Liver Complaint, and naturally feel very anxious on the subject of a remedy that will afford me even temporary relief. Your early reply will greatly oblige, very respectfully,
WILLIAM BARR.

LYNCHBURG, Va., May 12, 1879.—WM. BARR, Esq., Bovine, Mississippi—Dear Sir: Your inquire in regard to the "Liver case" which was effectually cured in my family from using the "Seven Springs Mass," is before me. The case referred to in my certificate was that of my wife's sister, who is now in her 80th year, and has been a member of my family for the last 27 years. She had been afflicted with Liver Disease for 30 years, sometimes almost dying with pains in the back, breast, and heaviness of the chest, heart-burns (intensely), sick stomach, vomiting, &c. I procured a few bottles of the "Mass" for her, and very soon after she began the use of it, her health commenced to get better, and she continued steadily to improve, and at this writing, so old, seemingly in as good health as a person who had never been afflicted with these diseases. She attributes her cure entirely to the efficacy of the "Seven Springs Mass." I regard it one of the greatest family medicines we have access to, not only for such diseases as above indicated, but for various other complaints for which it is recommended. Hoping these answers satisfactory, I am, very truly, A. WADDILL, Proprietor Lynchburg News.

For sale by Wm. Simpson, Pescud, Lee & Co., and F. H. Heartt, Raleigh, N. C., and Druggists generally.

Healthfulness.

A distinguished physician says: "After a careful examination of Dr. Price's Cream Baking Powder, I am satisfied that it is a wholesome preparation. I have introduced it among my patients, and have yet to learn where a convalescent patient could not indulge in warm biscuits made with it, and feel the better for it.

YADKIN COLLEGE

A LIVE SCHOOL FULLY IN EARNEST.

The health and morality of the village good. Next term opens Aug. 18th. Board only $8.25 per month. Tuition $12.50 to $20 per term.

The following gentlemen will accept our thanks for the privilege of publishing these references:

President S. Simpson graduated from Trinity College in 1873. He is a thorough scholar, elegant in general culture, and a good teacher.
B. CRAVEN,
Pres. Trinity College.

Rev. S. Simpson, A. M., was a student of Trinity College at the time I held the chair of Natural Sciences in the Institution. He made good advancements in the subjects in the Department I directed. His bearing was always dignified and courteous; and his reputation of the first character.
WILL C DOUB,
Pres Louisburg Female College,
Louisburg, N C

I consider the Rev S Simpson, President of Yadkin College a gentleman of fine attainments, a good disciplinarian and an energetic and accurate instructor. I warmly recommend him to the public confidence and patronage.
W. T. CANNAWAY,
Prof. of Latin and History,
Trinity College, N C

It affords me pleasure to state that Rev S Simpson, A M, Pres of Yadkin College, N C, is a regular graduate of Trinity College, N C, having completed in addition to the other Departments of our curriculum, a full course in Greek and French, with the unanimous approval of the Faculty, and having also taken a partial course in German. I have no hesitancy in recommending him as fully competent to teach successfully all the above mentioned branches.
O. W. CARR,
Prof Greek and Modern Languages,
Trinity College, N C

PRESIDENT:
* * * * I am under lasting obligation to you for the earnest efforts you made to teach the great principles of business and prosperity. The more I do in life, the more I recognize the benefit of your teaching. *
LEE RAMSEY, A M

REV S SIMPSON, A M:
* * * * I sincerely thank you. You taught me how to think. You are the right man in the right place * * * *
R T RAMSEY, M D

President Simpson came to Yadkin College highly recommended as a teacher. For six years he has sustained himself.

Medical.

Cuticura

REMEDIES

Infallibly Cure all Skin and Scalp Diseases, Scaly Eruptions, Itchings, and Irritations.

The testimonials of permanent cures of Skin and Scalp Diseases which have been the torture of a lifetime by the Cuticura Remedies, are more wonderful than any methods or remedies known to the medical profession.

Cuticura Resolvent, a powerful Blood Purifier, is the only purifying agent which finds its way into the circulating fluid and thence through the oil and sweat glands to the surface of the skin, thus destroying the poisonous elements with which these vessels have been daily charged.

Cuticura, The Great Skin Cure, applied externally, arrests all unnatural or morbid growth which cover the surface of the diseased glands and tubes with Scaly, Itching, and Irritating Humors, speedily it removes them, leaving the pores open, healthy, and free from diseased particles of matter.

Thus internally and externally do these great remedies act in conjunction, performing cures that have astonished the most noted physicians of the day.

**Salt
